

Benjamin Thompson : PhD in Old Testament (Foundation of St Matthias Scholar)

Thank you for your ongoing support for my PhD studies. My second year interview went well and encouraged me that I am making progress. In light of my studies I've been asked to teach a course in Hebrew narrative this year to a class of theological students including Church of England Ordinands. It has been a great joy to be able to pass on what I am learning to others so that they in turn can teach still others. Without the support of St Matthias I do not believe that I would be in a position to take on this role. Thank you, once again.
